

School Bad Weather Policy

School Closure In the event of snow or other extreme weather event, I would like to reassure you that every effort will be made to ensure that business continues as normal. School will only be closed as an absolute last resort in the best interests of our pupil's safety. A decision on school closure will usually not be made until there is either some certainty of the day/next day's forecast and/or an assessment of conditions on the school site and surrounding roads can be made. When making a decision of this importance we take into consideration many factors including road conditions, safety of the school site, travel arrangements (school buses and parents) and also whether conditions are likely to deteriorate/improve as the day goes on. Should it be necessary to close school then parents will be notified by 7:30 am by parentmail . BBC Radio Shropshire will also be notified and will broadcast the closure. Should we need to close the school during a school day parents will be similarly notified by parentmail or phone call.
