Top Tips

The secret to success is to practice little and often. Can you practice the KIRF on the way to or from school? You do not need to practice all aspects of the KIRF at once. Perhaps you could have a fact of the day or a few facts to practice each week. If you would like more ideas, please speak to your child's class teacher.

Practical Resources and Ideas

Write a number between one and ten in words and ask your child to write it in numerals, and vice versa. Collect a number of objects and ask your child to write how many there are in words and numerals.
