By the end of this half term, children should know the following facts. The aim is for them to recall these facts **with speed and accuracy:**

I can count in 2s and I know doubles and halves to 10

Children should be to count in 2s and use this knowledge to help them double and halve numbers to 10.

How many flowers are there?

Share the flowers into two groups. How many is half of the flowers?

Key vocabulary

half

double

twice as many

half as many

share

group

Top tips

The secret to success is practising *little* and *often*. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

Practical resources and ideas

Count in twos when out and about (e.g. pairs of cars in the car park). Collect ten objects around the home and practise halving groups of two objects (e.g. six objects, shared into two groups). Repeat with doubling.
