

Year 5 - Spring Term 2

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with speed and accuracy:

I can recall square numbers up to 12² and their square roots

Children should know the following square numbers and their square roots:

12 = 1 × 1 = 1	√1 = 1
$2^2 - 2 \times 2 - 4$	√4 – 2
$3^2 = 3 \times 3 = 9$	√9 = 3
$4^2 - 4 \times 4 - 16$	√16 - 4
$5^2 = 5 \times 5 = 25$	$\sqrt{25} = 5$
$6^2 - 6 \times 6 - 36$	√36 = 6
$7^2 = 7 \times 7 = 49$	$\sqrt{49} = 7$
$8^2 = 8 \times 8 = 64$	√64 = 8
$9^2 = 9 \times 9 = 81$	√81 = 9
10 ² = 10 x 10 = 100	√100 = 10
11 ² = 11 x 11 = 121	√121 = 11
$12^2 = 12 \times 12 = 144$	√144 = 12

Key vocabulary

What is 7 squared? What is 7 multiplied by itself? What is the square root of 144?

Top tips

The secret to success is practising little and aften Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

Practical resources and ideas

Cycling squares: At http://nrich.maths.org/ll5, there is a challenge involving square numbers. Can you complete the challenge and then create your own examples?
